

Data Science

Skills

Must Have:

- Strong background in machine learning (unsupervised and supervised techniques) with significant experience in text analytics/NLP.
- Excellent understanding of machine learning techniques and algorithms, such as k-NN, Naive Bayes, SVM, Decision Forests, logistic regression, MLPs, RNNs, etc.
- Strong programming ability in Python with experience in the Python data science ecosystem: Pandas, NumPy, SciPy, scikit-learn, NLTK, etc.
- Good knowledge of database query languages like SQL and experience with databases (PostgreSQL/MySQL/ Oracle/ MongoDB)
- Excellent verbal and written communication skills,
- Excellent analytical and problem-solving skills
- Degree in Computer Science, Engineering or relevant field is preferred.
- Proven Experience as Data Analyst or Data Scientist

Good To Have:

- Familiarity with Hive, Pig and Scala
- Experience with Data Visualization Tools like matplotlib, plotly, seaborn, ggplot, etc
- Experience with using cloud technologies on AWS/ Microsoft Azure "
